

## 777 Outfitters Pheasant Hunts

Our professional hunting guides have a true passion for the outdoors. Located in Northeastern Kansas, our newly built 5 star lodge is the central hub of all hunting activities. 777 has access to over 30,000 acres of prime upland hunting habitat and 1,000 acres of CSA. We specialize in native hunts & controlled shooting areas (CSA) for pheasant and quail, with the option to hunt prairie chicken & chukar.

After the hunt, enjoy time socializing in the lodge with refreshments and other hunters. We welcome, and encourage, youth and women to join in the hunt. Bring your family and friends to make memories with 777 outfitters!

Check our website for hunt dates and prices
